

I Love You the Most

By: TJ Moss

Helen my dear, it's been a hell of a ride
I saw you on Tinder and swiped to the right
Next thing I knew
I was doing laundry with you

Things moved fast
I got scared
I guess I wasn't ready for somebody who cared
You went away on extended vacay
But I visited you there

And we found love in spite of it all
The higher the climb, the harder the fall
Together we are breaking down the walls
You moved in on Christmas Day
My Irish mamasita you will stay
Let's raise a glass, I'll make a toast
Helen dear, I love you the most

It didn't take long to realize
We wanted this love to last through time
It's like we have to wear shades
Cuz our future looks so bright

Remember those rockin' Daytona nights
Enjoying the music and ridin' on bikes
It's like the only time we fight
Is right before dinner time

And better still is your family
With hundreds of your cousins
They've all been so good to me
And all I want is to be with you forever
Cuz every day, it just gets better

And we found love in spite of it all
The higher the climb, the harder the fall
Together we are breaking down the walls
You moved in on Christmas Day
My Irish mamasita you will stay
Let's raise a glass, I'll make a toast
Helen dear, I love you the most
